

## **ERAЕ Awards 2022**

The Editors of the European Review of Agricultural Economics have chosen the Outstanding Journal Paper for 2022 and the winners of the Referee Awards.

The 2022 Award for the ERAE Outstanding Journal Paper goes to Yazeed Abdul Mumin and Awudu Abdulai for their paper “Social networks, adoption of improved variety and household welfare: evidence from Ghana” published in the European Review of Agricultural Economics, Volume 49, Issue 1, January 2022, Pages 1–32, <https://doi.org/10.1093/erae/jbab007>.

The Referee Awards recognise the contribution of referees to the success and profile of the ERAE and, in a number of cases, the considerable value they add to papers that are finally published in the ERAE. In their selection procedure, the editors considered typical referee qualities as willingness to review, speed and content of the review in terms of relevance, exhaustiveness, constructiveness and consistency in follow-up.

The 2022 winners are: Simone Cerroni (University of Trento), Jeff Luckstead (Washington State), Kelvin Mashisha Shikuku (International Livestock Research Institute) and Christian Vossler (University of Tennessee).

Congratulations to all the winners !

Krijn J. Poppe  
Hon. Secretary-Treasurer
